Ándica

Gewürztraminer 2023

CURICO VALLEY

TYPE OF WINE: White
ORIGIN: Curicó Valley
VARIETIES: 100% Gewürztraminer
HARVEST TIME: February 22–27, 2023
BOTTLES PRODUCED: 40.000

TASTING NOTES

Delicate yellow color. The nose displays the floral notes and touches of honey typical of this variety. Intense and luscious on the palate, with great balance that provides a fresh, intense mouthfeel.

SERVING SUGGESTIONS

The perfect pairing for all shellfish (oysters in particular) and fish dishes. Serve at 7°C–9°C.

TECHNICAL DETAILS

Alcohol level: 13,5% ABV Ph: 2,91
Acidity level: 6,5 grs. /L (as tartaric) RS: 4,4 gr. /L.

FORMATS AVAILABLE: 75 cl

VINIFICATION

Length of maceration: Destemmed, without any maceration.
Fermentation: Alcoholic.
Malolactic fermentation: None.
Aging: Without any kind of wood.
Bottling date: August 2024.
Stored under good conditions, it will maintain its potential for the next:
Can be enjoyed immediately or laid down for 3–5 years.
Allergy advice: Contains sulfites.

HISTORY

Miguel Torres Ándica is made under the vision of honoring the natural expression and biodiversity of the country that welcomed us 40 years ago. This certified 100% organic wine is made with the utmost respect for the Chilean ecosystems where we grow our grapes, from the north to Patagonia, with a sustainable approach to agriculture and aware of climate change.

2023 VINTAGE

At Miguel Torres Chile, we specialize in searching for terroirs for different grape varieties. That is why we make wines from vineyards ranging from the Limarí Valley in the north to the town of Río Bueno in the Osorno Valley. The harvest period for us began on February 6 and ended on April 26, lasting 80 days. In terms of the climate, it was a vintage with higher-than-normal temperatures in a large part of the country and with rainfall that was higher than the 2022 season, although considered a dry year. The results of the wines this year were better than expected given the extreme climate conditions. In general, it was a year of moderate to high alcohol but without too many extremes, with acidity that is generally lower than in other vintages. To sum up, a year of excellent quality.
